Backup Caregiver Handover Kit

Everything a sibling, friend, neighbor or respite carer needs to step in while you are away

HOW TO USE THIS KIT

1. Fill it in a few days before you leave, while you can still check details with your loved one.
2. Copy medicine names and doses exactly from the pharmacy labels or the current medication list. Do not guess.
3. Walk through the Daily Routine page with the backup caregiver in person, if you can.
4. Leave the kit in one obvious place (kitchen counter or fridge). Add the date on every page you update.
5. Ask the backup caregiver to use the Daily Handover Log each day - it tells you what happened while you were away.
6. When you return, sit down for 10 minutes with the Return Debrief page and restock list.
