2027 Net Worth Tracker

Printable pages to use with the spreadsheet - or on their own with a pencil and a calculator

THE ONE FORMULA

What I own (assets) - What I owe (debts) = My net worth

ASSETS - COUNT THESE

- ☐ Checking & cash
- ☐ Savings & emergency fund
- ☐ Investment accounts
- ☐ Retirement accounts
- ☐ Home - realistic market value
- ☐ Car - what it would sell for
- ☐ Other things you could sell

DEBTS - COUNT THESE

- ☐ Credit card balances
- ☐ Student loans
- ☐ Car loans
- ☐ Mortgage balance
- ☐ Personal loans
- ☐ Medical bills / money owed

HOW TO USE THESE PAGES

1. Fill in the Account List once (no passwords or full account numbers - just names).
2. Pick one day each month (the 1st is easy). Use the Monthly Balance Sheet to write down every balance.
3. Copy the totals to the 2027 Snapshot page. Watch the Net worth column - the trend matters more than any single month.
4. Every three months, take 15 minutes for the Quarterly Check-in.
5. Set your goal on the Goal page and color in the progress bar as you go.

A QUICK EXAMPLE

	Start	After 12 months
Assets (checking, savings, 401(k), car…)	$41,050	$50,050
Debts (card, car loan, student loan)	$24,300	$17,320
Net worth	$16,750	$32,730
Change		+$15,980

MY PLAN

I'll check my balances on day: _____ Reminder set in: _____

A negative net worth is normal when you have student loans or a new mortgage. What matters is that it moves up over time. This is an organizing tool, not financial advice.
